C.L. "BUTCH" OTTER, GOVERNOR

May 27, 2009

Dear Beneficiary:

Currently the Crime Victims Compensation Program is reducing all payments for treatment and authorized services by 25% of reasonable and customary charges. **Based on payment projections for the upcoming fiscal year, compared with anticipated revenues, the Program will continue to reduce payments by 25% for all claims adjusted in Fiscal Year 2010 (July 1, 2009 to June 30, 2010).**

Please be advised that under the law there is no requirement that your provider accept our payment as payment in full. You may be responsible for any unpaid balance that remains after the program has made payment on your behalf. Your provider is responsible for determining if you will be billed for any unpaid balance. Please contact them directly to discuss your options.

This office is currently working on more permanent and comprehensive measures to regulate increasing expenditures. Thank you for your continued patience and understanding.

Sincerely,

A handwritten signature in cursive script, reading "George M. Gutierrez".

George M. Gutierrez, Bureau Chief
Crime Victims Compensation Program
